IMPROVE YOUR COMMUNICATIONS IMPACT

The top performing CEOs, managers and leaders all have one thing in common: the ability to communicate well. Whether you are an experienced manager, new to your role or just need to refresh your knowledge, the Midas ACE™ programme is designed to help improve your personal communication skills.

There are 13 modules in the Midas ACE™ training program which is specifically designed to help employees communicate more effectively in the workplace. The modules are quick 2 hour

The overall program covers all of the principle skills in communications but each session is focused on a particular topic which means Midas ACE™ can also run as self select i.e. employees can choose which module/s they feel are most appropriate to them.
